## BUSINESS REVIEW

Since the second half and, particularly, the fourth quarter of year 2014, international oil price has plummeted and the overall operating environment of the oil and gas industry has changed drastically. Against this backdrop, we have made every effort to ensure the smooth implementation of our ongoing projects while boosting our marketing. As such, revenue from each of our business segments increased and our major large-scale projects commissioned by several key customers were progressing smoothly during the year.

The third phase of our Zhuhai site was completed and put into use in the first half of 2014 and a FPSO topside project commissioned by one of our strategic customers has been carried out. This project was also completed and delivered during the year and our quality control and safety management fulfilled the customer's requirement and were highly praised. The contract with another strategic customer to fabricate subsea equipment for a deep water natural gas field in Australia was also substantially completed and is currently undergoing the final commissioning stage. Delivery is expected in early of year 2015. This customer also gave us quality and safety awards and has entered into a long-term global partnership agreement with us, paving the way for further future cooperation in subsea equipment fabrication. Furthermore, after 2 years of progress, the project to fabricate subsea equipment for the deep water gas field in South China Sea was also delivered. We have also successfully completed a large-scale South China Sea oil and gas field renovation project which involved a total of 4 large facilities, namely 3 drilling platforms and 1 FPSO, of which 2 drilling platforms were the largest of its kind in Asia. This project is large in workload and difficult to implement, and involves the collaboration of a number of professional areas and all the production process on a platform. The successful implementation of the project was monumental and signified the client's recognition of our fabrication technique, quality control and assurance, technical capability and project management.

In year 2014, we have also undertaken a series of supply and processing equipment projects ranging from oil and gas field equipment to oil and gas processing plants home and abroad, thereby achieving new breakthrough in terms of natural gas processing and water treatment equipment in the offshore oil market.

Notwithstanding some impact from the overall market environment, the provision of technical supporting services for oil and gas industry business maintained stable operation and recorded satisfactory performance in year 2014 through our marketing effort and internal management improvement. We have made new progresses in both conventional and unconventional businesses with new clients and new services in these markets, thus enhanced our competitiveness. Our new diving services business has completed initial establishment and will penetrate the key offshore oil field market in South China Sea. It has already accomplished several projects with satisfactory results.

Our associate, Penglai Jutal Offshore Engineering Heavy Industries Co. Ltd. ("Penglai Jutal"), undertook the fabrication project of 3 trains of pipe rack modules for the LNG project in Yamal, Russia as announced by the Company on 27 August 2014. This project represented the largest overseas fabrication order of Penglai Jutal as of the date hereof. However, its net profit for the year was affected by the later-than-expected conclusion of this order as the overall workload for year 2014 has been decreased. Nevertheless, Penglai Jutal has sufficient ongoing orders that have laid the solid foundation for its production and operation in the next 2 years.

## PROSPECTS

As the international oil price is expected to stay low for a certain period of time, the global oil and natural gas development and engineering and servicing industries are also taking a more cautious approach towards future investment and construction. Therefore, the number of opportunities in the market is expected to be decreased. In response to these market changes, we will take a number of initiatives in the coming year.

To effectively reduce our costs and expenditures, we have already implemented a range of measures such as redeploying and streamlining our structure and staff, slashing and strictly controlling expenses and optimizing our production and management procedures so as to improve our operating efficiency and maximize our performance.

In the coming year, we will put additional efforts into marketing by strengthening our marketing team, expanding our marketing campaign, adjusting our marketing strategy and seizing every possible market opportunity and chance.

Our strategies for the oil and gas fabrication business are to master the ability to handling turnkey oil and gas equipment contracts and the ability to fabricate large-scale modules and subsea equipment. To do so, we will further consolidate and establish our core research, development, design and management strengths.

Insisting on steady growth and innovation, we will make concerted efforts to surmount all future challenges with a proactive and self-confident manner in the coming year.

By Order of the Board

**CAO Yunsheng**

## 4. SIGNIFICANT INVESTMENT

During the year, the construction of the third phase of the Zhuhai site which mainly includes the plant and ancillary equipment and facilities was completed and put into operation. The Group has commenced the construction of the fourth phase of the Zhuhai site which mainly includes the assembly site and ancillary equipment and facilities. It is expected that the construction will be completed and put into operation in year 2015. The total investment is estimated to be approximately RMB50 million. In addition, the Group has acquired a parcel of leasehold land in Zhuhai, the area of which is approximately 78,000 square meters. This land will be used to expand the Zhuhai site.

For the year ended 31 December 2014, the Group did not have any other significant investment.

## 5. FOREIGN EXCHANGE RISK

The principal place of production and operation of the Group is in the PRC, and the functional currency of the principal operating subsidiaries of the Group is RMB. The Group also operates its business overseas and possesses assets which are priced in currencies other than RMB. Fluctuation of RMB against other currencies like United States Dollars ("USD") and Hong Kong Dollars ("HK\$") would bring certain foreign exchange risk to the Group. The Group would minimise the amount of assets which are priced in other currencies like USD and HK\$, perform rolling estimates on foreign exchange rates, and would consider potential foreign exchange risk when entering into business contracts.

## 6. ASSETS PLEDGED BY THE GROUP

As at 31 December 2014, in order to obtain better financing conditions, the Group has pledged a parcel of land and a portion of structures and plants located in Zhuhai with a carrying amount of approximately RMB214,010,000 in favor of a commercial bank in China. Approximately RMB31,498,000 of the bank deposits were pledged as security deposits for the issuance of performance bonds, letter of credits and bank acceptance. In addition, the Group has pledged bill receivables of RMB19,950,000 in favor of a commercial bank in China to obtain loans in more favorable terms.

# MANAGEMENT DISCUSSION AND ANALYSIS

## 7. CONTINGENT LIABILITIES

As at 31 December 2014, the Group did not have any significant contingent liabilities.

## 8. CAPITAL MANAGEMENT

The Group's objectives when managing capital are to safeguard the Group's ability to continue as a going concern and to maximise the return to the shareholders through the optimisation of the debt and equity balance.

The Group sets the amount of capital in proportion to risk. The Group manages the capital structure and makes adjustment to it in light of changes in economic conditions and the risk characteristics of the underlying assets. In order to maintain or adjust the capital structure, the Group may adjust the payment of dividends, issue new shares, buy-back shares, raise new debts, redeem existing debts or sell assets to reduce debts.

The Group monitors capital using a gearing ratio, which is bank borrowings divided by total equity of the Group. The Group's policy is to keep the gearing ratio at a reasonable level.

The gearing ratios at 31 December 2014 and at 31 December 2013 were as follows:

	2014 RMB'000	2013 RMB'000

# CORPORATE GOVERNANCE REPORT

The Company has adopted the Corporate Governance Code (the “Code Provisions”) introduced in Appendix 14 of the Listing Rules to maintain a high standards of corporate governance so as to improve the corporate transparency and protect the interests of the Shareholders.

In the opinion of the directors, the Company has complied with the Corporate Governance Code as set out in Appendix 14 of the Rules Governing the Listing of Securities on The Stock Exchange (the “Listing Rules”) for the year ended 31 December 2014, save and except the Company provides the two board members, namely Mr. Cao Yunsheng and Mr. Zhao Wuhui, with monthly internal financial statements, instead of all board members, because they are responsible for overseeing the financial affairs of the Company. The remaining Directors have accessed to the monthly internal financial statements as well. The reason for such deviation from the Code Provisions is to enhance the Company’s efficiency and confidentiality.

There are four independent non-executive Directors in the Board, all of them possess adequate independence and therefore the Board considers the Company has achieved balance of and provided sufficient protection to its interests.

## DIRECTORS’ SECURITIES TRANSACTIONS

The Company has adopted the Model Code for Securities Transactions by Directors of Listed Issuers (“Model Code”) set out in Appendix 10 of the Listing Rules as its own code of conduct regarding Directors’ securities transactions.

Having made specific enquiry of all Directors, the Directors of the Company have complied with the required standard set out in the Model Code regarding Directors’ securities transactions.

## BOARD

The Board currently comprises four executive Directors and four independent non-executive Directors.

### Executive Directors

Mr. Wang Lishan (Chairman), Mr. Cao Yunsheng (CEO), Mr. Zhao Wuhui, Mr. Li Chunyi

### Independent Non-executive Directors

Mr. Su Yang, Mr. Xiang Qiang, Mr. Lan Rong, Mr. Meng Liming

Mr. Wang Lishan and Mr. Cao Yunsheng are the chairman and the CEO of the Company respectively and the roles of chairman and the CEO are segregated and not exercised by the same individual. The biographical details of the Directors are set out in the section headed “Directors and Senior Management” of this annual report.

To the best acknowledgment of the Company, among the members of the Board, none of them has any financial, business and relative relationship with the other members in the Board, including the chairman and the general manager. All of them are free to make independent judgements.

By the terms of the service contracts, for the executive Directors, and the appointment letters, for the independent non-executive Directors, the term for each Director is three years.

The responsibility of the Board is to lead and supervise the development direction and operation strategy of the Group, and to decide on material affairs of the Company such as the resolution of budget, resolution of profits allocation, significant investments and acquisitions, issue of new shares, amendments to the articles of association and appointments to senior management of the Company. While the management of the Company was given sufficiently autonomy by the Board to handle the daily ordinary course of administration and management, when the Board delegates aspects of its management and administration functions to management, it has given clear directions as to the powers of management, in particular, with respect to the circumstances where management shall report back and obtain prior approval from the Board before making decisions or entering into any commitments on behalf of the Company.

The Board confirmed that the Company has received, from each of the independent non-executive Directors, an annual confirmation of this independence pursuant to Rule 3.13 of the Listing Rules. The Company considers that they are independent under Rule 3.13 of the Listing Rules.

In respect of the corporate governance functions, during the year 2014, the Board performed following corporate governance duties in accordance with the terms of reference on the corporate governance duties:

- To review the Company's policies and practices on corporate governance;
- To review and monitor the training and continuous professional development of directors and senior management;
- To review and monitor the Company's policies and practices on compliance with legal and regulatory requirements;
- To review and monitor the code of conduct applicable to directors and employees;
- To review the Company's compliance with the Corporate Governance Code and disclosure in the Corporate Governance report.

## **INDUCTION AND CONTINUING DEVELOPMENT OF DIRECTORS**

# INDEPENDENT AUDITOR'S REPORT

## TO THE SHAREHOLDERS OF

### JUTAL OFFSHORE OIL SERVICES LIMITED

*(Incorporated in the Cayman Islands with limited liability)*

We have audited the consolidated financial statements of Jutal Offshore Oil Services Limited (the "Company") and its subsidiaries (collectively referred to as the "Group") set out on pages 33 to 83, which comprise the consolidated statement of financial position as at 31 December 2014, and the consolidated statement of profit or loss, consolidated statement of profit or loss and other comprehensive income, consolidated statement of changes in equity and consolidated statement of cash flows for the year then ended, and a summary of significant accounting policies and other explanatory information.

## DIRECTORS' RESPONSIBILITY FOR THE CONSOLIDATED FINANCIAL STATEMENTS

The directors of the Company are responsible for the preparation of consolidated financial statements that give a true and fair view in accordance with Hong Kong Financial Reporting Standards issued by the Hong Kong Institute of Certified Public Accountants and the disclosure requirements of the Hong Kong Companies Ordinance, and for such internal control as the directors determine is necessary to enable the preparation of consolidated financial statements that are free from material misstatement, whether due to fraud or error.

## AUDITOR'S RESPONSIBILITY

Our responsibility is to express an opinion on these consolidated financial statements based on our audit and to report our opinion solely to you, as a body, and for no other purpose. We do not assume responsibility towards or accept liability to any other person for the contents of this report. We conducted our audit in accordance with Hong Kong Standards on Auditing issued by the Hong Kong Institute of Certified Public Accountants. Those standards require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether the consolidated financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the consolidated financial statements. The procedures selected depend on the auditor's judgement, including the assessment of the risks of material misstatement of the consolidated financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation of consolidated financial statements that give a true and fair view in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of accounting estimates made by the directors, as well as evaluating the overall presentation of the consolidated financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

## OPINION

In our opinion, the consolidated financial statements give a true and fair view of the state of affairs of the Group as at 31 December 2014 and of the Group's results and cash flows for the year then ended in accordance with Hong Kong Financial Reporting Standards and have been properly prepared in accordance with the disclosure requirements of the Hong Kong Companies Ordinance.

# NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

For the year ended 31 December 2014

## 1. GENERAL INFORMATION

The Company was incorporated in the Cayman Islands with limited liability. The address of its registered office is Cricket Square, Hutchins Drive, P.O. Box 2681, Grand Cayman KY1-1111, Cayman Islands. The address of its principal place of business is 10th Floor, Chiwan Petroleum Building, Shekou, Nanshan District, Shenzhen, the People's Republic of China (the "PRC"). The Company's shares are listed on the Main Board of The Stock Exchange of Hong Kong Limited (the "Stock Exchange").

The Company is an investment holding company. The principal activities of its subsidiaries are set out in note 19 to the consolidated financial statements.

In the opinion of the directors of the Company, as at 31 December 2014, Cheung Hing Investments Limited, a company incorporated in the Samoa, is the immediate and ultimate parent; and Mr. Wang Lishan is the ultimate controlling party of the Company.

## 2. ADOPTION OF NEW AND REVISED HONG KONG FINANCIAL REPORTING STANDARDS AND REQUIREMENTS

In the current year, the Group has adopted all the new and revised Hong Kong Financial Reporting Standards ("HKFRSs") issued by the Hong Kong Institute of Certified Public Accountants ("HKCIPA") that are relevant to its operations and effective for its accounting year beginning on 1 January 2014. HKFRSs comprise Hong Kong Financial Reporting Standards ("HKFRS"); Hong Kong Accounting Standards ("HKAS"); and Interpretations. The adoption of these new and revised HKFRSs did not result in significant changes to the Group's accounting policies and amounts reported for the current year and prior years as stated in note 2(a) below.

### (a) Application of new and revised HKFRSs

#### (i) Amendments to HKFRS 10, HKFRS 12 and HKAS 27, Investment entities

The amendments provide consolidation relief to those parents which qualify to be an investment entity as defined in the amended HKFRS 10. Investment entities are required to measure their subsidiaries at fair value through profit or loss. These amendments do not have an impact on these consolidated financial statements as the Company does not qualify to be an investment entity.

#### (ii) Amendments to HKFRS 13 (Annual Improvements to HKFRSs 2010-2012 Cycle)

This amendment to the standard's basis for conclusions only clarifies that the ability to measure certain short-term receivables and payables on an undiscounted basis is retained.

#### (iii) Amendment to HKAS 32, Offsetting financial assets and financial liabilities

This amendment clarifies that the right of set-off must not be contingent on a future event. It must also be legally enforceable for all counterparties in the normal course of business, as well as in the event of default, insolvency or bankruptcy. The amendment also considers settlement mechanisms. The amendment did not have a significant effect on the Group's consolidated financial statements.

#### (iv) Amendment to HKAS 36, Recoverable amount disclosures for non-financial assets

The amendments reduce the circumstances in which the recoverable amount of assets or cash-generating units is required to be disclosed, clarify the disclosures required, and introduce an explicit requirement to disclose the discount rate used in determining impairment (or reversals) where recoverable amount based on fair value less costs of disposal is determined using a present value technique. The amendments do not have an impact on these consolidated financial statements as the recoverable amounts of assets or cash-generating units have been determined on the basis of their value in use.

## 2. ADOPTION OF NEW AND REVISED HONG KONG FINANCIAL REPORTING STANDARDS AND REQUIREMENTS (CONT'D)

### (a) Application of new and revised HKFRSs (cont'd)

#### (v) Amendments to HKFRS 2 (Annual Improvements to HKFRSs 2010-2012 Cycle)

This amendment clarifies the definitions of “vesting condition” and “market condition” and adds definitions for “performance condition” and “service condition”. The amendment is applicable prospectively to share-based payment transactions for which the grant date is on or after 1 July 2014 and had no effect on the Group’s consolidated financial statements.

#### (vi) Amendments to HKFRS 3 (Annual Improvements to HKFRSs 2010-2012 Cycle)

This amendment, applicable prospectively to business combinations for which the acquisition date is on or after 1 July 2014, requires any contingent consideration that is classified as an asset or a liability (i.e. non-equity) to be measured at fair value at each reporting date with changes in fair value recognised in profit or loss. It had no effect on the Group’s consolidated financial statements.

### (b) New and revised HKFRSs in issue but not yet effective (see below)

The Group has not early applied new and revised HKFRSs that have been issued but are not yet effective for the financial year beginning 1 January 2014. The directors anticipate that the new and revised HKFRSs will be adopted in the Group’s consolidated financial statements when they become effective. The Group is in the process of assessing, where applicable, the potential effect of all new and revised HKFRSs that will be effective in future periods but is not yet in a position to state whether these new and revised HKFRSs would have a material impact on its results of operations and financial position.

### (c) New Hong Kong Companies Ordinance

The requirements of Part 9 “Accounts and Audit” of the new Hong Kong Companies Ordinance (Cap. 622) come into operation as from the Company’s first financial year commencing on or after 3 March 2014 in accordance with section 358 of that Ordinance. The Group is in the process of making an assessment of expected impact of the changes in the Companies Ordinance on the consolidated financial statements in the period of initial application of Part 9 of the new Hong Kong Companies Ordinance (Cap. 622). So far it has concluded that the impact is unlikely to be significant.

# NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

For the year ended 31 December 2014

## 3. SIGNIFICANT ACCOUNTING POLICIES

These consolidated financial statements have been prepared in accordance with all applicable HKFRSs issued by the HKICPA and accounting principles generally accepted in Hong Kong. These consolidated financial statements also comply with the applicable disclosure requirements of the Hong Kong Companies Ordinance, which for this financial year and the comparative period continue to be those of the predecessor Hong Kong Companies Ordinance (Cap. 32), in accordance with transitional and saving arrangements for Part 9 of the new Hong Kong Companies Ordinance (Cap. 622), "Accounts and Audit", which are set out in sections 76 to 87 of Schedule 11 to that Ordinance. These consolidated financial statements also comply with the applicable disclosure provisions of the Rules Governing the Listing of Securities on the Stock Exchange.

These consolidated financial statements have been prepared under the historical cost convention.

The preparation of financial statements in conformity with HKFRS requires the use of certain critical accounting estimates. It also requires management to exercise its judgement in the process of applying the Group's accounting policies. The areas involving a higher degree of judgement or complexity, or areas where assumptions and estimates are significant to the consolidated financial statements are disclosed in note 4.

The significant accounting policies applied in the preparation of these consolidated financial statements are set out below.

### (a) Consolidation

The consolidated financial statements include the financial statements of the Company and its subsidiaries made up to 31 December. Subsidiaries are entities over which the Group has control. The Group controls an entity when it is exposed, or has rights, to variable returns from its involvement with the entity and has the ability to affect those returns through its power over the entity. The Group has power over an entity when the Group has existing rights that give it the current ability to direct the relevant activities, i.e. activities that significantly affect the entity's returns.

When assessing control, the Group considers its potential voting rights as well as potential voting rights held by other parties. A potential voting right is considered only if the holder has the practical ability to exercise that right.

Subsidiaries are consolidated from the date on which control is transferred to the Group. They are de-consolidated from the date the control ceases.

The gain or loss on the disposal of a subsidiary that results in a loss of control represents the difference between (i) the fair value of the consideration of the sale plus the fair value of any investment retained in that subsidiary and (ii) the Company's share of the net assets of that subsidiary plus any remaining goodwill and any accumulated foreign currency translation reserve relating to that subsidiary.

Intragroup transactions, balances and unrealised profits are eliminated. Unrealised losses are also eliminated unless the transaction provides evidence of an impairment of the asset transferred. Accounting policies of subsidiaries have been changed where necessary to ensure consistency with the policies adopted by the Group.

Non-controlling interests represent the equity in subsidiaries not attributable, directly or indirectly, to the Company. Non-controlling interests are presented in the consolidated statement of financial position and consolidated statement of changes in equity within equity. Non-controlling interests are presented in the consolidated statement of profit or loss and consolidated statement of profit or loss and other comprehensive income as an allocation of profit or loss and total comprehensive income for the year between the non-controlling shareholders and owners of the Company.

Profit or loss and each component of other comprehensive income are attributed to the owners of the Company and to the non-controlling shareholders even if this results in the non-controlling interests having a deficit balance.

Changes in the Company's ownership interest in a subsidiary that do not result in a loss of control are accounted for as equity transactions (i.e. transactions with owners in their capacity as owners). The carrying amounts of the controlling and non-controlling interests are adjusted to reflect the changes in their relative interests in the subsidiary. Any difference between the amount by which the non-controlling interests are adjusted and the fair value of the consideration paid or received is recognised directly in equity and attributed to the owners of the Company.

### 3. SIGNIFICANT ACCOUNTING POLICIES (CONT'D)

#### (b) Business combination and goodwill

The acquisition method is used to account for the acquisition of a subsidiary in a business combination. The consideration transferred in a business combination is measured at the acquisition-date fair value of the assets given, equity instruments issued, liabilities incurred and any contingent consideration. Acquisition-related costs are recognised as expenses in the periods in which the costs are incurred and the services are received. Identifiable assets and liabilities of the subsidiary in the acquisition are measured at their acquisition-date fair values.

The excess of the sum of the consideration transferred over the Company's share of the net fair value of the subsidiary's identifiable assets and liabilities is recorded as goodwill. Any excess of the Company's share of the net fair value of the identifiable assets and liabilities over the sum of the consideration transferred is recognised in consolidated profit or loss as a gain on bargain purchase which is attributed to the Company.

In a business combination achieved in stages, the previously held equity interest in the subsidiary is remeasured at its acquisition-date fair value and the resulting gain or loss is recognised in consolidated profit or loss. The fair value is added to the sum of the consideration transferred in a business combination to calculate the goodwill.

After initial recognition, goodwill is measured at cost less accumulated impairment losses. For the purpose of impairment testing, goodwill acquired in a business combination is allocated to each of the cash-generating units ("CGUs") or groups of CGUs that is expected to benefit from the synergies of the combination. Each unit or group of units to which the goodwill is allocated represents the lowest level within the Group at which the goodwill is monitored for internal management purposes. Goodwill impairment reviews are undertaken annually or more frequently if events or changes in circumstances indicate a potential impairment. The carrying value of the CGU containing the goodwill is compared to its recoverable amount, which is the higher of value in use and the fair value less costs of disposal. Any impairment is recognised immediately as an expense and is not subsequently reversed.

#### (c) Associates

Associates are entities over which the Group has significant influence. Significant influence is the power to participate in the financial and operating policy decisions of an entity but is not control or joint control over those policies. The existence and effect of potential voting rights that are currently exercisable or convertible, including potential voting rights held by other entities, are considered when assessing whether the Group has significant influence. In assessing whether a potential voting right contributes to significant influence, the holder's intention and financial ability to exercise or convert that right is not considered.

Investment in an associate is accounted for in the consolidated financial statements by the equity method and is initially recognised at cost. Identifiable assets and liabilities of the associate in an acquisition are measured at their fair values at the acquisition date. The excess of the cost of the investment over the Group's share of the net fair value of the associate's identifiable assets and liabilities is recorded as goodwill. The goodwill is included in the carrying amount of the investment and is tested for impairment together with the investment at the end of each reporting period when there is objective evidence that the investment is impaired. Any excess of the Group's share of the net fair value of the identifiable assets and liabilities over the cost of acquisition is recognised in consolidated profit or loss.

The Group's share of an associate's post-acquisition profits or losses is recognised in consolidated profit or loss, and its share of the post-acquisition movements in reserves is recognised in the consolidated reserves. The cumulative post-acquisition movements are adjusted against the carrying amount of the investment. When the Group's share of losses in an associate equals or exceeds its interest in the associate, including any other unsecured receivables, the Group does not recognise further losses, unless it has incurred obligations or made payments on behalf of the associate. If the associate subsequently reports profits, the Group resumes recognising its share of those profits only after its share of the profits equals the share of losses not recognised.

The gain or loss on the disposal of an associate that results in a loss of significant influence represents the difference between (i) the fair value of the consideration of the sale plus the fair value of any investment retained in that associate and (ii) the Group's entire carrying amount of that associate (including goodwill) and any related accumulated foreign currency translation reserve. If an investment in an associate becomes an investment in a joint venture, the Group continues to apply the equity method and does not remeasure the retained interest.

# NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

For the year ended 31 December 2014

## 3. SIGNIFICANT ACCOUNTING POLICIES (CONT'D)

### (c) Associates (cont'd)

Unrealised profits on transactions between the Group and its associates are eliminated to the extent of the Group's interests in the associates. Unrealised losses are also eliminated unless the transaction provides evidence of an impairment of the asset transferred. Accounting policies of associates have been changed where necessary to ensure consistency with the policies adopted by the Group.

### (d) Foreign currency translation

#### (i) Functional and presentation currency

Items included in the financial statements of each of the Group's entities are measured using the currency of the primary economic environment in which the entity operates (the "functional currency"). The consolidated financial statements are presented in Renminbi ("RMB"), which is the Company's presentation currency and the functional currency of the principal operating subsidiaries of the Group.

#### (ii) Transactions and balances in each entity's financial statements

Transactions in foreign currencies are translated into the functional currency on initial recognition using the exchange rates prevailing on the transaction dates. Monetary assets and liabilities in foreign currencies are translated at the exchange rates at the end of each reporting period. Gains and losses resulting from this translation policy are recognised in profit or loss.

Non-monetary items that are measured at fair value in foreign currencies are translated using the exchange rates at the dates when the fair values are determined.

When a gain or loss on a non-monetary item is recognised in other comprehensive income, any exchange component of that gain or loss is recognised in other comprehensive income. When a gain or loss on a non-monetary item is recognised in profit or loss, any exchange component of that gain or loss is recognised in profit or loss.

#### (iii) Translation on consolidation

The results and financial position of all the Group entities that have a functional currency different from the Company's presentation currency are translated into the Company's presentation currency as follows:

- Assets and liabilities for each statement of financial position presented are translated at the closing rate at the date of that statement of financial position;
- Income and expenses are translated at average exchange rates for the period (unless this average is not a reasonable approximation of the cumulative effect of the rates prevailing on the transaction dates, in which case income and expenses are translated at the exchange rates on the transaction dates); and
- All resulting exchange differences are recognised in other comprehensive income and accumulated in the foreign currency translation reserve.

On consolidation, exchange differences arising from the translation of monetary items that form part of the net investment in foreign entities and of borrowings are recognised in other comprehensive income and accumulated in the foreign currency translation reserve. When a foreign operation is sold, such exchange differences are reclassified to consolidated profit or loss as part of the gain or loss on disposal.

Goodwill and fair value adjustments arising on the acquisition of a foreign entity are treated as assets and liabilities of the foreign entity and translated at the closing rate.

### 3. SIGNIFICANT ACCOUNTING POLICIES (CONT'D)

#### (e) Property, plant and equipment

Property, plant and equipment including buildings and leasehold land (classified as finance leases) held for use in the production or supply of goods or services, or for administrative purposes (other than properties under construction as described below), are stated in the consolidated statement of financial position at cost, less subsequent accumulated depreciation and subsequent accumulated impairment losses, if any.

Subsequent costs are included in the asset's carrying amount or recognised as a separate asset, as appropriate, only when it is probable that future economic benefits associated with the item will flow to the Group and the cost of the item can be measured reliably. All other repairs and maintenance are recognised in profit or loss during the period in which they are incurred.

Depreciation of property, plant and equipment is calculated at rates appropriate to write off their cost less their residual values over the estimated useful lives on a straight-line basis. The principal useful lives are as follows:

Buildings	20 – 44 years
Plant and machinery	5 – 10 years
Furniture, fixtures and equipment	5 years
Motor vehicles	5 years
Leasehold land	Over the term of the lease

The residual values, useful lives and depreciation method are reviewed and adjusted, if appropriate, at the end of each reporting period.

Construction in progress represents buildings under construction and plant and equipment pending installation, and is stated at cost less impairment losses. Depreciation begins when the relevant assets are available for use.

The gain or loss on disposal of property, plant and equipment is the difference between the net sales proceeds and the carrying amount of the relevant asset, and is recognised in profit or loss.

#### (f) Intangible assets - patents and computer software

Patents and computer software are stated at cost less accumulated amortisation and impairment losses. Amortisation is calculated on a straight-line basis over their estimated useful lives of 4 to 5 years.

#### (g) Leases

##### The Group as lessee

##### (i) Operating leases

Leases that do not substantially transfer to the Group all the risks and rewards of ownership of assets are accounted for as operating leases. Lease payments (net of any incentives received from the lessor) are recognised as an expense on a straight-line basis over the lease term.

##### (ii) Finance leases

Leases that substantially transfer to the Group all the risks and rewards of ownership of assets are accounted for as finance leases. At the commencement of the lease term, a finance lease is capitalised at the lower of the fair value of the leased asset and the present value of the minimum lease payments, each determined at the inception of the lease.

The corresponding liability to the lessor is included in the statement of financial position as finance lease payable. Lease payments are apportioned between the finance charge and the reduction of the outstanding liability. The finance charge is allocated to each period during the lease term so as to produce a constant periodic rate of interest on the remaining balance of the liability.

Assets under finance leases are depreciated the same as owned assets.

# NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

For the year ended 31 December 2014

## 3. SIGNIFICANT ACCOUNTING POLICIES (CONT'D)

### (g) Leases (cont'd)

#### The Group as lessor

##### (i) Operating leases

Leases that do not substantially transfer to the lessees all the risks and rewards of ownership of assets are accounted for as operating leases. Rental income from operating leases is recognised on a straight-line basis over the term of the relevant lease.

### (h) Inventories

Inventories are stated at the lower of cost and net realisable value. Cost is determined using the weighted average basis. Net realisable value for inventories of raw materials held for trading is the estimated selling price in the ordinary course of business, less the estimated costs necessary to make the sale. Net realisable value for inventories of raw materials and consumables held to be used in construction contracts is determined by reference to the underlying specific contracts in progress in which the inventories will ultimately be used.

### (i) Construction contracts

When the outcome of a construction contract can be estimated reliably, contract revenue are recognised by reference to the stage of completion of the contract at the end of the reporting period. When it is probable that total contract costs will exceed total contract revenue, the expected loss is recognised as an expense immediately. When the outcome of a construction contract cannot be estimated reliably, contract revenue are recognised only to the extent of contract costs incurred that it is probable will be recoverable. The accounting policy for contract revenue is stated in (r) below.

Construction contracts in progress at the end of the reporting period are recorded in the statement of financial position at the amount of costs incurred plus recognised profits less recognised losses and progress billings, and are presented in the statement of financial position as "Gross amount due from customers for contract work". When progress billings exceed costs incurred plus recognised profits less recognised losses, the surplus is recorded in the statement of financial position as "Gross amount due to customers for contract work". Progress billings not yet paid by the customer are included in the statement of financial position under "Trade and bills receivables". Amounts received before the related work is performed are included in the statement of financial position under "Accruals and other payables".

### (j) Recognition and derecognition of financial instruments

Financial assets and financial liabilities are recognised in the statement of financial position when the Group becomes a party to the contractual provisions of the instruments.

Financial assets are derecognised when the contractual rights to receive cash flows from the assets expire; the Group transfers substantially all the risks and rewards of ownership of the assets; or the Group neither transfers nor retains substantially all the risks and rewards of ownership of the assets but has not retained control on the assets. On derecognition of a financial asset, the difference between the asset's carrying amount and the sum of the consideration received and the cumulative gain or loss that had been recognised in other comprehensive income is recognised in profit or loss.

Financial liabilities are derecognised when the obligation specified in the relevant contract is discharged, cancelled or expires. The difference between the carrying amount of the financial liability derecognised and the consideration paid is recognised in profit or loss.

### 3. SIGNIFICANT ACCOUNTING POLICIES (CONT'D)

#### (k) Trade and other receivables

Trade and other receivables are non-derivative financial assets with fixed or determinable payments that are not quoted in an active market and are recognised initially at fair value and subsequently measured at amortised cost using the effective interest method, less impairment. An impairment of trade and other receivables is established when there is objective evidence that the Group will not be able to collect all amounts due according to the original terms of receivables. The amount of the impairment is the difference between the receivables' carrying amount and the present value of estimated future cash flows, discounted at the effective interest rate computed at initial recognition. The amount of the impairment is recognised in profit or loss.

Impairment losses are reversed in subsequent periods and recognised in profit or loss when an increase in the receivables' recoverable amount can be related objectively to an event occurring after the impairment was recognised, subject to the restriction that the carrying amount of the receivables at the date the impairment is reversed shall not exceed what the amortised cost would have been had the impairment not been recognised.

#### (l) Cash and cash equivalents

For the purpose of the statement of cash flows, cash and cash equivalents represent cash at bank and on hand, demand deposits with banks and other financial institutions, and short-term highly liquid investments which are readily convertible into known amounts of cash and subject to an insignificant risk of change in value. Bank overdrafts which are repayable on demand and form an integral part of the Group's cash management are also included as a component of cash and cash equivalents.

#### (m) Financial liabilities and equity instruments

Financial liabilities and equity instruments are classified according to the substance of the contractual arrangements entered into and the definitions of a financial liability and an equity instrument under HKFRSs. An equity instrument is any contract that evidences a residual interest in the assets of the Group after deducting all of its liabilities. The accounting policies adopted for specific financial liabilities and equity instruments are set out below.

#### (n) Borrowings

Borrowings are recognised initially at fair value, net of transaction costs incurred, and subsequently measured at amortised cost using the effective interest method.

Borrowings are classified as current liabilities unless the Group has an unconditional right to defer settlement of the liability for at least 12 months after the reporting period.

#### (o) Convertible loans

Convertible loans which entitle the holder to convert the loans into a fixed number of equity instruments at a fixed conversion price are regarded as compound instruments consisting a liability and an equity component. At the date of issue, the fair value of the liability component is estimated using the prevailing market interest rate for similar non-convertible debt. The difference between the proceeds of issue of the convertible loans and the fair value assigned to the liability component, representing the embedded option for the holder to convert the loans into equity of the Group, is included in equity as convertible loan notes equity reserve. The liability component is carried as a liability at amortised cost using the effective interest method until extinguished on conversion or redemption.

Transaction costs are apportioned between the liability and equity components of the convertible loans based on their relative carrying amounts at the date of issue. The portion relating to the equity component is charged directly to equity.

#### (p) Trade and other payables

Trade and other payables are stated initially at their fair value and subsequently measured at amortised cost using the effective interest method unless the effect of discounting would be immaterial, in which case they are stated at cost.

## 3. SIGNIFICANT ACCOUNTING POLICIES (CONT'D)

### (q) Equity instruments

Equity instruments issued by the Company are recorded at the proceeds received, net of direct issue costs.

### (r) Revenue recognition

Revenue is measured at the fair value of the consideration received or receivable and is recognised when it is probable that the economic benefits will flow to the Group and the amount of revenue can be measured reliably.

Interest income is recognised on a time-proportion basis using the effective interest method.

Rental income is recognised on a straight-line basis over the lease term.

Dividend income is recognised when the shareholders' rights to receive payment are established.

Revenue from the sales of equipments and trading of raw materials are recognised on the transfer of significant risks and rewards of ownership, which generally coincides with the time when the goods are delivered and the title has passed to the customers.

Revenue from the rendering of technical consultancy services and repair and maintenance services is recognised when the services are rendered. Revenue from the rendering of services other than technical consultancy and repair and maintenance services is recognised by reference to stage of completion using percentage of completion method as mentioned below:

#### Contract revenue

When the outcome of a construction contract can be estimated reliably, revenue from a fixed price contract is recognised using the percentage of completion method, measured by reference to the percentage of contract costs incurred to date to the estimated total costs for the contract; and revenue from a cost plus contract is recognised by reference to the recoverable costs incurred during the period plus an appropriate proportion of the total fee, measured by reference to the proportion that costs incurred to date bear to the estimated total costs of the contract.

When the outcome of a construction contract cannot be estimated reliably, revenue is recognised only to the extent of contract costs incurred that is probable to be recoverable.

### (s) Employee benefits

#### (i) Employee leave entitlements

Employee entitlements to annual leave and long service leave are recognised when they accrue to employees. A provision is made for the estimated liability for annual leave and long service leave as a result of services rendered by employees up to the end of the reporting period.

Employee entitlements to sick leave and maternity leave are not recognised until the time of leave.

#### (ii) Pension obligations

The Group contributes to defined contribution retirement schemes which are available to all employees. Contributions to the schemes by the Group and employees are calculated as a percentage of employees' basic salaries. The retirement benefit scheme cost charged to profit or loss represents contributions payable by the Group to the funds.

#### (iii) Termination benefits

Termination benefits are recognised at the earlier of the dates when the Group can no longer withdraw the offer of those benefits and when the Group recognises restructuring costs and involves the payment of termination benefits.

### 3. SIGNIFICANT ACCOUNTING POLICIES (CONT'D)

#### (t) Share-based payments

The Group issues equity-settled share-based payments to certain directors and employees. Equity-settled share-based payments are measured at the fair value (excluding the effect of non-market based vesting conditions) of the equity instruments at the date of grant. The fair value determined at the grant date of the equity-settled share-based payments is expensed on a straight-line basis over the vesting period, based on the Group's estimate of shares that will eventually vest and adjusted for the effect of non-market based vesting conditions.

#### (u) Borrowing costs

Borrowing costs directly attributable to the acquisition, construction or production of qualifying assets, which are assets that necessarily take a substantial period of time to get ready for their intended use or sale, are capitalised as part of the cost of those assets, until such time as the assets are substantially ready for their intended use or sale. Investment income earned on the temporary investment of specific borrowings pending their expenditure on qualifying assets is deducted from the borrowing costs eligible for capitalisation.

To the extent that funds are borrowed generally and used for the purpose of obtaining a qualifying asset, the amount of borrowing costs eligible for capitalisation is determined by applying a capitalisation rate to the expenditures on that asset. The capitalisation rate is the weighted average of the borrowing costs applicable to the borrowings of the Group that are outstanding during the period, other than borrowings made specifically for the purpose of obtaining a qualifying asset.

All other borrowing costs are recognised in profit or loss in the period in which they are incurred.

#### (v) Government grants

A government grant is recognised when there is reasonable assurance that the Group will comply with the conditions attaching to it and that the grant will be received.

Government grants relating to income are deferred and recognised in profit or loss over the periods to match them with the costs they are intended to compensate.

Government grants that become receivable as compensation for expenses or losses already incurred or for the purpose of giving immediate financial support to the Group with no future related costs are recognised in profit or loss in the period in which they become receivable.

Government grants relating to the purchase of assets are recorded as deferred revenue and recognised in profit or loss on a straight-line basis over the useful lives of the related assets.

#### (w) Taxation

Income tax represents the sum of the current tax and deferred tax.

The tax currently payable is based on taxable profit for the year. Taxable profit differs from profit recognised in profit or loss because of items of income or expense that are taxable or deductible in other years and items that are never taxable or deductible. The Group's liability for current tax is calculated using tax rates that have been enacted or substantively enacted by the end of the reporting period.

Deferred tax is recognised on differences between the carrying amounts of assets and liabilities in the consolidated financial statements and the corresponding tax bases used in the computation of taxable profit. Deferred tax liabilities are generally recognised for all taxable temporary differences and deferred tax assets are recognised to the extent that it is probable that taxable profits will be available against which deductible temporary differences, unused tax losses or unused tax credits can be utilised. Such assets and liabilities are not recognised if the temporary difference arises from goodwill or from the initial recognition (other than in a business combination) of other assets and liabilities in a transaction that affects neither the taxable profit nor the accounting profit.

# NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

For the year ended 31 December 2014

## 3. SIGNIFICANT ACCOUNTING POLICIES (CONT'D)

### (w) Taxation (cont'd)

Deferred tax liabilities are recognised for taxable temporary differences arising on investments in subsidiaries and associates, except where the Group is able to control the reversal of the temporary difference and it is probable that the temporary difference will not reverse in the foreseeable future.

The carrying amount of deferred tax assets is reviewed at the end of each reporting period and reduced to the extent that it is no longer probable that sufficient taxable profits will be available to allow all or part of the asset to be recovered.

Deferred tax is calculated at the tax rates that are expected to apply in the period when the liability is settled or the asset is realised, based on tax rates that have been enacted or substantively enacted by the end of the reporting period. Deferred tax is recognised in profit or loss, except when it relates to items recognised in other comprehensive income or directly in equity, in which case the deferred tax is also recognised in other comprehensive income or directly in equity.

The measurement of deferred tax assets and liabilities reflects the tax consequences that would follow from the manner in which the Group expects, at the end of the reporting period, to recover or settle the carrying amount of its assets and liabilities.

Deferred tax assets and liabilities are offset when there is a legally enforceable right to set off current tax assets against current tax liabilities and when they relate to income taxes levied by the same taxation authority and the Group intends to settle its current tax assets and liabilities on a net basis.

### (x) Related parties

A related party is a person or entity that is related to the Group.

(A) A person or a close member of that person's family is related to the Group if that person:

- (i) has control or joint control over the Group;
- (ii) has significant influence over the Group; or
- (iii) is a member of the key management personnel of the Company or of a parent of the Company.

(B) An entity is related to the Group if any of the following conditions applies:

- (i) The entity and the Company are members of the same group (which means that each parent, subsidiary and fellow subsidiary is related to the others).
- (ii) One entity is an associate or joint venture of the other entity (or an associate or joint venture of a member of a group of which the other entity is a member).
- (iii) Both entities are joint ventures of the same third party.
- (iv) One entity is a joint venture of a third entity and the other entity is an associate of the third entity.
- (v) The entity is a post-employment benefit plan for the benefit of employees of either the Group or an entity related to the Group.
- (vi) The entity is controlled or jointly controlled by a person identified in (A).
- (vii) A person identified in (A)(i) has significant influence over the entity or is a member of the key management personnel of the entity (or of a parent of the entity).

### 3. SIGNIFICANT ACCOUNTING POLICIES (CONT'D)

#### (y) Impairment of assets

At the end of each period, the Group reviews the carrying amounts of its assets - except goodwill, inventories, deferred tax assets and receivables, of which the policies are set out in notes 3(b), 3(h), 3(w) and 3(k) respectively, to determine whether there is any indication that those assets have suffered an impairment loss. If any such indication exists, the recoverable amount of the asset is estimated in order to determine the extent of any impairment loss. Where it is not possible to estimate the recoverable amount of an individual asset, the Group estimates the recoverable amount of the cash-generating unit to which the asset belongs.

Recoverable amount is the higher of fair value less costs of disposal and value in use. In assessing value in use, the estimated future cash flows are discounted to their present value using a pre-tax discount rate that reflects current market assessments of the time value of money and the risks specific to the asset.

If the recoverable amount of an asset or cash-generating unit is estimated to be less than its carrying amount, the carrying amount of the asset or cash-generating unit is reduced to its recoverable amount. An impairment loss is recognised immediately in profit or loss.

Where an impairment loss subsequently reverses, the carrying amount of the asset or cash-generating unit is increased to the revised estimate of its recoverable amount, but so that the increased carrying amount does not exceed the carrying amount that would have been determined (net of amortisation or depreciation) had no impairment loss been recognised for the asset or cash-generating unit in prior years. A reversal of an impairment loss is recognised immediately in profit or loss.

#### (z) Provisions and contingent liabilities

Provisions are recognised for liabilities of uncertain timing or amount when the Group has a present legal or constructive obligation arising as a result of a past event, it is probable that an outflow of economic benefits will be required to settle the obligation and a reliable estimate can be made. Where the time value of money is material, provisions are stated at the present value of the expenditures expected to settle the obligation.

Where it is not probable that an outflow of economic benefits will be required, or the amount cannot be estimated reliably, the obligation is disclosed as a contingent liability, unless the probability of outflow is remote. Possible obligations, whose existence will only be confirmed by the occurrence or non-occurrence of one or more future events are also disclosed as contingent liabilities unless the probability of outflow is remote.

#### (aa) Events after the reporting period

Events after the reporting period that provide additional information about the Group's position at the end of the reporting period or those that indicate the going concern assumption is not appropriate are adjusting events and are reflected in the consolidated financial statements. Events after the reporting period that are not adjusting events are disclosed in the notes to the consolidated financial statements when material.

# NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

For the year ended 31 December 2014

## 4. CRITICAL JUDGEMENT AND KEY ESTIMATES

### Critical judgement in applying accounting policies

In the process of applying the accounting policies, the directors have exercised judgement on the classification and ownership of a parcel of leasehold land acquired during the year ended 31 December 2014 that has significant effect on the amounts recognised in the consolidated financial statements (apart from those involving estimations, which are dealt with below).

As stated in note 15 to the consolidated financial statements, the Group is in the process of applying for the land use right certificate in respect of a parcel of leasehold land acquired during the year ended 31 December 2014. Despite the fact that the Group has not yet obtained the relevant legal title, the directors determined to classify this parcel of leasehold land as a finance lease and include it under property, plant and equipment, on the grounds that the risks and rewards of this parcel of leasehold land has been substantially transferred to the Group and they expect the transfer of legal title in future should have no major difficulties.

### Key sources of estimation uncertainty

The key assumptions concerning the future, and other key sources of estimation uncertainty at the end of the reporting period, that have a significant risk of causing a material adjustment to the carrying amounts of assets and liabilities within the next financial year, are discussed below.

#### (a) Property, plant and equipment and depreciation

The Group determines the estimated useful lives, residual values and related depreciation charges for the Group's property, plant and equipment. This estimate is based on the historical experience of the actual useful lives and residual values of property, plant and equipment of similar nature and functions. The Group will revise the depreciation charge where useful lives and residual values are different to those previously estimated, or it will write-off or write-down technically obsolete or non-strategic assets that have been abandoned.

The carrying amount of property, plant and equipment as at 31 December 2014 was approximately RMB525,442,000 (2013: RMB427,337,000).

#### (b) Revenue and profit recognition

The Group estimates the percentage of completion of the construction contracts by reference to the proportion of contract costs incurred for work performed to date to the estimated total costs for the contracts. When the final cost incurred by the Group is different from the amounts that were initially budgeted, such differences will impact the revenue and the profit or loss recognised in the period in which such determination is made. Budget cost of each project will be reviewed periodically and revised accordingly where significant variances are noted during the revision. During the year, approximately RMB828,139,000 (2013: RMB776,491,000) of revenue from construction contracts was recognised.

#### (c) Income taxes

The Group is subject to income taxes in several jurisdictions. Significant estimates are required in determining the provision for income taxes. There are many transactions and calculations for which the ultimate tax determination is uncertain during the ordinary course of business. Where the final tax outcome of these matters is different from the amounts that were initially recorded, such differences will impact the income tax and deferred tax provisions in the period in which such determination is made. During the year, approximately RMB10,074,000 (2013: RMB12,556,000) of income tax expense was charged to profit or loss based on the Group's estimated profit for the year.

#### (d) Impairment of goodwill

Determining whether goodwill is impaired requires an estimation of the value in use of the cash-generating unit to which goodwill has been allocated. The value in use calculation requires the Group to estimate the future cash flows expected to arise from the cash-generating unit and a suitable discount rate in order to calculate the present value. The carrying amount of goodwill at the end of the reporting period was approximately RMB182,090,000 (2013: RMB177,637,000).

## 4. KEY SOURCES OF ESTIMATION UNCERTAINTY (CONT'D)

### Key sources of estimation uncertainty (cont'd)

#### (e) Impairment loss for bad and doubtful debts

Management determines impairment of trade and other receivables and amounts due from customers for contract work. This estimate is based on the collection history of the respective customers and the current market condition. Management reassess impairment at the end of each reporting period.

Significant judgement is exercised for the assessment of the collectability of the receivables from each customer. In making such judgement and estimate, management considers a wide range of factors such as results of follow-up procedures, customer payment trends including subsequent payments and the financial condition of the respective customers. Where the actual result is different from the original estimate, such difference will impact the carrying value of the trade and other receivables, amounts due from customers for contract work and the allowance charge/write-back to profit or loss in the year in which such estimate has been changed.

As at 31 December 2014, impairment of trade and other receivables and of amounts due from customers for contract work charged to profit or loss amounted to RMB2,513,000 (2013: RMB4,122,000) and RMB1,558,000 (2013: RMB12,248,000) respectively.

#### (f) Allowance for slow-moving inventories

Allowance for slow-moving inventories is made based on the ageing and estimated net realisable value of inventories. The assessment of the allowance amount involves judgement and estimates. Where the actual outcome in future is different from the original estimate, such difference will impact the carrying value of inventories and allowance charge/write-back in the period in which such estimate has been changed. Allowance for slow-moving inventories of approximately RMB3,600,000 was made for the year ended 31 December 2014 (2013: Nil).

#### (g) Accounting for variation orders of construction contracts

The Group makes claims for additional work performed, which may arise either under specific circumstances provided for under the contracts or due to variation made to the contract specifications by customers. Where the amounts of such claims have not been formally agreed at the end of the reporting period, the amount recoverable as estimated by management is included in the contract value in determining the estimated profit or foreseeable loss on the contract.

# NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

For the year ended 31 December 2014

## 5. FINANCIAL RISK MANAGEMENT

The Group's activities expose it to a variety of financial risks: foreign currency risk, credit risk, liquidity risk and interest rate risk. The Group's overall risk management programme focuses on the unpredictability of financial markets and seeks to minimise potential adverse effects on the Group's financial performance.

### (a) Foreign currency risk

Most of the Group's business transactions, assets and liabilities are principally denominated in RMB, Hong Kong dollars ("HK\$") and United States dollars ("US\$"). The Group currently does not have a foreign currency hedging policy in respect of foreign currency transactions, assets and liabilities. The Group monitors its foreign currency exposure closely and will consider hedging significant foreign currency exposure should the need arise.

At 31 December 2014, if the US\$ had weakened 5 per cent against RMB with all other variables held constant, consolidated profit after tax for the year and the equity would have been approximately RMB3,295,000 (2013: RMB2,174,000) lower, arising mainly as a result of the foreign exchange loss on bank deposits and net position of trade and bills receivables and trade and bills payables denominated in US\$. If the US\$ had strengthened 5 per cent against RMB with all other variables held constant, consolidated profit after tax for the year and the equity would have been approximately RMB3,295,000 (2013: RMB2,174,000) higher, arising mainly as a result of the foreign exchange gain on bank deposits and net position of trade and bills receivables and trade and bills payables denominated in US\$.

At 31 December 2014, if the HK\$ had weakened 5 per cent against RMB with all other variables held constant, consolidated profit after tax for the year and the equity would have been approximately RMB1,949,000 (2013: Nil) higher, arising mainly as a result of the foreign exchange gain on bank borrowings denominated in HK\$. If the HK\$ had strengthened 5 per cent against RMB with all other variables held constant, consolidated profit after tax for the year and the equity would have been approximately RMB1,949,000 (2013: Nil) lower, arising mainly as a result of the foreign exchange loss on bank borrowings denominated in HK\$.

### (b) Credit risk

The carrying amount of the bank and cash balances, trade and other receivables and gross amount due from customers for contract work included in the statement of financial position represents the Group's maximum exposure to credit risk in relation to the Group's financial assets.

The credit risk on bank and cash balances is limited because the counterparties are banks with high credit-ratings assigned by international credit-rating agencies.

In respect of trade and other receivables and gross amount due from customers for contract work, individual credit evaluations are performed on all customers and counterparties. These evaluations focus on the customers and counterparties' financial position, past history of making payments and take into account information specific to the customers and counterparties as well as pertaining to the economic environment in which the customers and counterparties operate. Monitoring procedures have been implemented to ensure that follow-up action is taken to recover overdue debts. In addition, the Group reviews the recoverable amount of each individual trade and other receivable balance and gross amount due from customers for contract work balance at the end of each reporting period to ensure adequate allowance are made for the estimated irrecoverable amounts.

As at 31 December 2014, there were 2 (2013: 3) customers which individually contributed over 10% of the Group's trade and other receivables. The aggregate carrying amount of trade and other receivables from these customers amounted to 33% of the Group's total trade and other receivables as at 31 December 2014 (2013: 58%).

### (c) Liquidity risk

The Group's policy is to regularly monitor current and expected liquidity requirements to ensure that it maintains sufficient reserves of cash to meet its liquidity requirements in the short and longer term.

All the Group's financial liabilities mature within one year.

## 5. FINANCIAL RISK MANAGEMENT (CONT'D)

### (d) Interest rate risk

The Group's exposure to interest rate risk arises from its bank deposits and bank borrowings. Part of the Group's bank deposits and bank borrowings bear interests at variable rates varied with the then prevailing market condition and expose the Group to cash flow interest rate risk.

At 31 December 2014, if interest rates at that date had been 100 basis points lower with all other variables held constant, consolidated profit after tax for the year and the equity would have been approximately RMB4,643,000 higher, arising mainly as a result of lower interest expenses from bank borrowings (2013: RMB790,000 lower, arising mainly as a result of lower interest income from bank deposits). If interest rates had been 100 basis points higher, with all other variables held constant, consolidated profit after tax for the year and the equity would have been approximately RMB4,643,000 lower, arising mainly as a result of higher interest expenses from bank borrowings (2013: RMB790,000 higher, arising mainly as a result of higher interest income from bank deposits).

The Group's other fixed-rate bank borrowings and bank deposits bear fixed interest rates and therefore are subject to fair value interest rate risks.

### (e) Categories of financial instruments at 31 December

## 8. SEGMENT INFORMATION

The Group has three reportable segments as follows:

- Provision of technical support and related services for oil and gas industry and sales of related equipment and materials.
- Fabrication of oil and gas facilities and oil and gas processing skid equipment.
- Provision of technical support services for shipbuilding industry.

The Group's reportable segments are strategic business units that offer different products and services. They are managed separately because each business requires different technology and marketing strategies.

The accounting policies of the reportable segments are the same as those described in note 3 to the consolidated financial statements. Segment profits or losses do not include other income, administrative expenses, other operating expenses, finance costs, share of profit of an associate and income tax expenses. Segment assets do not include goodwill, investment in an associate, current and deferred tax assets, pledged bank deposits, bank and cash balances and other corporate assets. Segment liabilities do not include bank borrowings, current and deferred tax liabilities, deferred revenue, and other corporate liabilities.

### (a) Hong Kong Profits Tax

No provision for Hong Kong Profits Tax is required since the Group has no assessable profits arising in Hong Kong for the years ended 31 December 2014 and 2013.

### (b) PRC Enterprise Income Tax

Pursuant to relevant laws and regulations in the PRC, the applicable PRC Enterprise Income Tax rates of the Group's PRC subsidiaries are as follows:

#### (i) Zhuhai Jutal Offshore Oil Services Company Limited ("Zhuhai Jutal")

Zhuhai Jutal is a sino-foreign equity joint venture established in the PRC. Zhuhai Jutal was approved to be recognised as a new and high technology enterprise since the year ended 31 December 2010 and has renewed during the year ended 31 December 2013. Zhuhai Jutal is therefore entitled to enjoy a reduced income tax rate of 15% from year 2013 to year 2015.

#### (ii) The tax rate applicable to other Group's PRC subsidiaries were 25% during the year.

### (c) Tax charge on profits assessable elsewhere have been calculated at the rates of tax prevailing in the countries in which the Group operates, based on existing legislation, interpretation and practices in respect thereof.

## 14. EARNINGS PER SHARE

The calculation of the basic and diluted earnings per share is based on the following:

	2014 RMB'000	2013 RMB'000
<b>Earnings</b>		
Earnings for the purpose of calculating basic and diluted earnings per share	<b>28,456</b>	55,645
<b>Number of shares</b>		
	2014	2013
Issued ordinary shares at 1 January	<b>731,899,278</b>	628,799,278
Effect of shares issued on subscription	<b>17,753,425</b>	30,547,945
Effect of shares issued on exercise of share options	<b>11,857,123</b>	11,229,658
Effect of shares issued on exercise of warrants	–	21,972,603
Weighted average number of ordinary shares for the purpose of calculating basic earnings per share	<b>761,509,826</b>	692,549,484
Effect of dilutive potential ordinary shares arising from share options	<b>13,247,330</b>	12,945,157
Effect of dilutive potential ordinary shares arising from warrants	–	6,888,470
Weighted average number of ordinary shares for the purpose of calculating diluted earnings per share	<b>774,757,156</b>	712,383,111

Basic earnings per share attributable to owners of the Company is calculated by dividing the profit for the year attributable to owners of the Company by the weighted average number of the ordinary shares in issue during the year.

Diluted earnings per share attributable to owners of the Company is calculated by dividing the profit attributable to owners of the Company for the year by the weighted average number of ordinary shares in issue during the year after adjusting for the number of diluted potential ordinary shares granted under the Company's share option scheme.

At 31 December 2013 and 1 January 2014	177,637
Arising on acquisition of a subsidiary (note 39)	2,204
Exchange difference	2,249
At 31 December 2014	182,090

Goodwill acquired in a business combination is allocated, at acquisition, to the cash generating units ("CGUs") that are expected to benefit from that business combination. The carrying amount of goodwill had been allocated as follows:

	2014 RMB'000	2013 RMB'000
The share of interest in an associate – Penglai Jutal Offshore Engineering Heavy Industries Company Limited ("Penglai Jutal")	179,886	177,637
Undersea maintenance services	2,204	–
At 31 December	182,090	177,637

As at 31 December 2014, no impairment loss on goodwill is recognised.

The recoverable amounts of the CGUs have been determined on the basis of their value in use using discounted cash flow method. The key assumptions for the discounted cash flow method are those regarding the discount rates, growth rates, budgeted gross margin and turnover during the period. The Group estimates discount rates using pre-tax rates that reflect current market assessments of the time value of money and the risks specific to the business of the CGUs. The growth rates are based on long-term average economic growth rate of the geographical area in which the businesses of the CGUs operate. Budgeted gross margin and turnover are based on past practices and expectations on market development.

The Group prepares cash flow forecasts derived from the most recent financial budgets approved by the directors for the next five years with the residual period using the growth rate of 5% (2013: 5%) and 3% (2013: N/A) for the Group's share of interest in Penglai Jutal and undersea maintenance services activities respectively. These rates do not exceed the average long-term growth rate for the relevant markets.

The rate used to discount the forecast cash flows from the Group's share of interest in Penglai Jutal and undersea maintenance services activities are 13.63% (2013: 15.20%) and 19.02% (2013: N/A) respectively.

At 1 January	–	–
Addition during the year	8,000	–
At 31 December	8,000	–
Analysed as:		
Non-current liabilities	8,000	–

During the year, the Group received approximately RMB8,000,000 (2013: Nil) government grant in relation to a development project, including certain research and development activities, construction of production premises and acquisition of plant and machineries, in a parcel of leasehold land with site area of 77,650 square meters located in the Equipment Manufacture Area of Gaolan Port Economic Zone in Zhuhai Province in the PRC.

The grant is recognised as deferred revenue and a portion of the deferred revenue will be credited to profit or loss on a straight-line basis over the useful lives of the related assets when the assets are ready for management's intended use. The remaining portion will be credited to profit or loss when the related research and development activities are successfully completed. The Group has an obligation to repay the grant if the grant is not utilised for the development project. No deferred revenue is transferred to profit or loss as the related development project has not commenced at the end of the reporting period.

### 34. DEFERRED TAX

The following are the deferred tax liabilities and assets recognised by the Group.

	Accelerated tax depreciation RMB'000	Investment in an associate RMB'000	Recognition of contracting income RMB'000	Undistributed earnings of the PRC subsidiaries RMB'000	Tax losses RMB'000	Others RMB'000	Total RMB'000

Charge to profit or loss for the year (note 10)							
– Changes in temporary differences	(61)	532	(521)	(238)	6,133	(3,210)	2,635
At 31 December 2014	2,169	18,690	7,561	2,009	(3,060)	(5,396)	21,973

The following is the analysis of the deferred tax balances (after offset) for statement of financial position purposes:

	2014 RMB'000	2013 RMB'000
Deferred tax liabilities	29,650	30,428
Deferred tax assets	(7,677)	(11,090)
	21,973	19,338

At the end of reporting period the Group has unused tax losses of approximately RMB30,954,000 (2013: RMB51,525,000) available for offset against future profits. A deferred tax asset has been recognised in respect of approximately RMB12,238,000 (2013: RMB36,774,000) of such losses. No deferred tax asset has been recognised in respect of the remaining approximately RMB18,716,000 (2013: RMB14,751,000) due to the unpredictability of future profit streams. Included in unrecognised tax losses are losses of approximately RMB4,943,000, RMB21,000 and RMB315,000 that can be carried forward by five years, two years and one year respectively. Other tax losses may be carried forward indefinitely (2013: all the unrecognised tax losses may be carried forward indefinitely).

# NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

For the year ended 31 December 2014

## 34. DEFERRED TAX (CONT'D)

At the end of the reporting period, the aggregate amount of temporary differences associated with undistributed earnings of subsidiaries and an associate for which deferred tax liabilities have not been recognised is approximately RMB10,462,000 (2013: RMB10,025,000). No liability has been recognised in respect of these differences because the Group is in a position to control the timing of reversal of the temporary differences and it is probable that such differences will not reverse in the foreseeable future.

The subscription was completed on 23 July 2014 and the proceeds on the issue of warrants, amounting to approximately RMB160,000, net of warrant issue expenses, was credited to the Company's warrants reserve account.

The Group's objectives when managing capital are to safeguard the Group's ability to continue as a going concern and to maximise the return to the shareholders through the optimisation of the debt and equity balance.

The Group sets the amount of capital in proportion to risk. The Group manages the capital structure and makes adjustments to it in the light of changes in economic conditions and the risk characteristics of the underlying assets. In order to maintain or adjust the capital structure, the Group may adjust the payment of dividends, issue new shares, buy-back shares, raise new debts, redeem existing debts or sell assets to reduce debts.

The Group monitors capital using a gearing ratio, which is bank borrowings divided by total equity of the Group. The Group's policy is to keep the gearing ratio at a reasonable level.

# NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

For the year ended 31 December 2014

## 35. SHARE CAPITAL (CONT'D)

The gearing ratio as at the 31 December 2014 is as follows:

	2014 RMB'000	2013 RMB'000
Bank borrowings	230,240	234,000
Total equity	1,126,369	1,018,554
Gearing ratio	20.44%	22.97%

The slightly decrease in gearing ratio from year ended 31 December 2013 was mainly because the construction of the third phase of the Group's fabrication site located in Zhuhai was substantially completed during the year ended 31 December 2014. The directors consider that the Group has sufficient funds to maintain the existing working capital requirement through cash flows generated from operation; existing level of bank borrowings and fund obtained from issue of additional shares.

The only externally imposed capital requirement is that for the Group to maintain its listing on the Stock Exchange it has to have a public float of at least 25% of the shares. The Group receives a report from the share registrars monthly on substantial share interests showing the non-public float and it demonstrates continuing compliance with the 25% limit throughout the year. As at 31 December 2014, 47.65% (2013: 42.76%) of the shares were in public hands.

## 36. SHARE-BASED PAYMENTS

### Equity-settled share option scheme

The Company operates a share option scheme (the "Scheme") for the purpose of providing incentives and rewards to eligible participants who contribute to the success of the Group's operations. Eligible participants include the full time and part-time employees, directors (including independent non-executive directors), substantial shareholders of each member of the Group, associates of the directors and substantial shareholders of any member of the Group, trustee of any trust pre-approved by the Board; and any advisor (professional or otherwise), consultant, distributor, supplier, agent, customer, joint venture partner, service provider to the Group whom the Board considers, in its sole discretion, has contributed or contributes to the Group. The Scheme was adopted on 28 August 2006 and, unless otherwise cancelled or amended, will remain in force for 10 years from 21 September 2006.

The maximum number of unexercised share options currently permitted to be granted under the Scheme is an amount equivalent, upon their exercise, to 10% of the shares of the Company in issue at any time. The maximum number of shares issuable under share options to each eligible participant in the Scheme within any 12-month period, is limited to 1% of the shares of the Company in issue at any time. Any further grant of shares options in excess of this limit is subject to shareholders' approval in a general meeting.

Share options granted to a director, chief executive or Substantial Shareholder of the Company, or to any of their associates, are subject to approval in advance by the independent non-executive Directors (excluding an independent non-executive Director who is the Grantee of the Options). In addition, any share options granted to a Substantial Shareholder or an independent non-executive Director of the Company, or to any of their associates, in excess of 0.1% of the shares of the Company in issue at any time or with an aggregate value (based on the price of the Company's shares at the date of the grant) in excess of HK\$5 million, within any 12-month period, are subject to Shareholders' approval in advance in a general meeting.

The offer of a grant of share options may be accepted within 28 days from the date of the offer, upon payment of a nominal consideration of HK\$1 in total by the grantee. The exercise period of the share options granted is determinable by the directors, and commences after a certain vesting period and ends on a date which is not later than ten years from the date of the offer of the share options.

Share options do not confer rights on the holder to dividends or to vote at shareholders' meetings.

## 38. RESERVES (CONT'D)

### (c) Nature and purpose of reserves

#### (i) Share premium account

Under the Companies Law of the Cayman Islands, the funds in the share premium account of the Company are distributable to the shareholders of the Company provided that immediately following the date on which the dividend is proposed to be distributed, the Company will be in a position to pay off its debts as they fall due in the ordinary course of business.

#### (ii) Share-based payment reserve

The share-based payment reserve represents the fair value of the actual or estimated number of unexercised share options granted to directors and employees of the Group recognised in accordance with the accounting policy adopted for equity-settled share-based payments in note 3(t) to the consolidated financial statements.

#### (iii) Special reserve

The special reserve represents the difference between the nominal value of the shares of subsidiaries acquired and the nominal value of the shares issued by the Company as consideration thereof pursuant to the reorganisation as set out in the prospectus of the Company dated 11 September 2006.

#### (iv) Statutory reserves

The statutory reserves, which are non-distributable, are appropriated from the profit after taxation of the Group's PRC subsidiaries under the applicable laws and regulations in the PRC.

#### (v) Foreign currency translation reserve

The foreign currency translation reserve comprises all foreign exchange differences arising from the translation of the financial statements of foreign operations. The reserve is dealt with in accordance with the accounting policies set out in note 3(d)(iii) to the consolidated financial statements.

#### (vi) Convertible loan notes equity reserve

The convertible loan notes equity reserve represents the value of the unexercised equity component of convertible notes issued by the Company recognised in accordance with the accounting policy adopted for convertible loans in note 3(o) to the consolidated financial statements.

#### (vii) Warrants reserve

Warrants reserve represents fair value of consideration received from the subscription of warrants as details in note 35(g). It is transferred to share premium account when the warrant is exercised or released directly to retained profits when the warrant is expired.

# NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

For the year ended 31 December 2014

## 39. NOTES TO THE CONSOLIDATED STATEMENT OF CASH FLOWS

### Acquisition of a subsidiary

On 20 January 2014, the Group acquired 100% of the issued share capital of 深圳市藍海潛水工程有限公司 (Shenzhen Marine Diving Engineering Co., Ltd.) ("SZ Marine") for a cash consideration of RMB6,300,000. SZ Marine was engaged in provision of undersea maintenance services during the period and was acquired to enable the Group to participate in undersea maintenance service business and to broaden the source of income.

The fair value of the identifiable assets and liabilities of SZ Marine acquired as at the date of acquisition is as follows:

	RMB'000
Net assets acquired:	
Property, plant and equipment	1,095
Intangible assets	2,900
Trade receivables	479
Prepayments, deposits and other receivables	104
Bank and cash balances	92
Trade payables	(393)
Accruals and other payables	(181)
	<hr/>
	4,096
Goodwill	2,204
	<hr/>
Satisfied by:	
Cash	6,300
	<hr/>
Net cash outflow arising on acquisition:	
Cash consideration paid	6,300
Cash and cash equivalents acquired	(92)
	<hr/>
	6,208
	<hr/>

The goodwill arising on the acquisition of SZ Marine is attributable to the anticipated profitability of the distribution of the Group's services in the new market and the anticipated future operating synergies from the combination.

SZ Marine contributed approximately RMB7,071,000 to the Group's turnover for the year and contributed loss of approximately RMB650,000 to the Group's profit for the year for the period between the date of acquisition and the end of the reporting period.

If the acquisition had been completed on 1 January 2014, the Group's turnover for the period would have no change and profit for the year would have been approximately RMB28,303,000. The proforma information is for illustrative purposes only and is not necessarily an indication of the turnover and results of operations of the Group that actually would have been achieved had the acquisition been completed on 1 January 2014, nor is intended to be a projection of future results.

## 40. CONTINGENT LIABILITIES

As at 31 December 2014, the Group did not have any significant contingent liabilities (2013: Nil).

#### 41. CAPITAL COMMITMENTS

The Group's capital commitments at the end of reporting period are as follows:

	2014 RMB'000	2013 RMB'000
Property, plant and equipment Contracted but not provided for	1,142	51,481

#### 42. LEASE COMMITMENTS

At 31 December 2014 the total future minimum lease payments under non-cancellable operating leases are payable as follows:

	2014 RMB'000	2013 RMB'000
Within one year	2,673	8,020
In the second to fifth years, inclusive	1,917	1,652
After five years	588	612
	5,178	10,284

Operating lease payments represent rentals payable by the Group for certain of its office, staff quarters, warehouses, machineries and motor vehicles. Leases are negotiated for an average term of 2 years and rentals are fixed over the lease terms and do not include contingent rentals.

#### 43. RELATED PARTY TRANSACTIONS

In addition to those related party transactions and balances disclosed elsewhere in the consolidated financial statements, the Group had the following transactions with its related parties during the year:

	Note	2014 RMB'000	2013 RMB'000
Sales of materials to an associate, Penglai Jutal		–	248
Contract revenue and other sales income received/receivable from a related company, Dalian Shipbuilding Industry Offshore Company Limited ("Dalian Shipbuilding Offshore")	(a)	83,941	64,455
Contract revenue received/receivables from a related company, Ocean Shine Decal Industries (Shenzhen) Ltd ("Ocean Shine")	(b)	181	–

(a) Dalian Shipbuilding Offshore is an associate of Prospering Investments Limited, a Company beneficially wholly-owned by Mr. Wang Lishan, the chairman of the Company, an executive director and is the ultimate controlling party of the Company. At 31 December 2014, contract revenue receivable of approximately RMB12,138,000 (2013: RMB374,000) from Dalian Shipbuilding Offshore was included in the Group's trade and bills receivables.

(b) Ocean Shine is a company incorporated in the PRC with limited liability and beneficially wholly-owned by Mr. Wang Lishan, the chairman of the Company, an executive director and is the ultimate controlling party of the Company.

The related party transactions with Dalian Shipbuilding Offshore constitute as continuing connected transactions as defined in Chapter 14A of the Listing Rules, further details of which are included in the Directors' Report on pages 23 to 24.

#### 44. APPROVAL OF CONSOLIDATED FINANCIAL STATEMENTS

The consolidated financial statements were approved and authorised for issue by the Board of Directors on 31 March 2015.
